

# **Transportation Compliance, ELDs and CT DMV Commercial Motor Vehicle Safety Division Truck Safety Inspection**

**Saturday April 14th, 2018  
Tri-State Kenworth  
Enfield, CT**

**Sponsored by:**

**2 CEU's for CT Certified Forest  
Practitioners**

CT Professional Timber Producers Assoc.  
PO Box 508  
Oneco, CT 06373

If you operate a commercial motor vehicle in the state of Connecticut this program is for you. Whether you operate one truck or a fleet of trucks, intrastate or interstate, you will find valuable information in this program.

Experts from the transportation field will present on the new ELD regulations, CDL compliance, Federal and state motor carrier regulations, how to build a strong compliance program, record keeping, commercial auto insurance considerations and more.

An inspector from the CT DMV Commercial Vehicle Safety Division will be on hand to spend a couple of hours reviewing key aspects of truck safety including what to expect during a level 1 inspection and common compliance issues including tie-down rules for moving heavy equipment. A tractor, trailer and equipment will be available for hands-on education.

Time will be allocated during each presentation for questions and answers.
