

## Course Information:

### Dates and Time:

Tentatively the classes will be Thursdays but may change to Wednesdays. Starting, January 5th through April 6, 2022. There will be 13 class sessions. Classes are tentatively scheduled for Thursday but may change to Wednesday. You will be notified once the arrangements are finalized.

### Location:

The Agricultural Experiment Station  
123 Huntington Street, Jones Auditorium  
New Haven, CT 06511

### Fees:

\$400.00 Payment must be made or a Purchase Order received in advance of the first class. Please go to :

<https://ctpa.org/arboriculture-101-registration/> and enroll online. If you would like to send in a check, please fill out the attached enrollment form and mail it, along with a check, to CTPA.

### Class Size:

The class will be limited to 40 students, on a first paid, first served basis. Town employees may reserve a place by sending a Purchase Order. Those not admitted into this class will be placed on a notification list for the next class, to be held beginning in September 2023.

### Texts:

*Additional texts are suggested and include:*

**Pirone's Tree Maintenance**, Hartman, Pirone and Sall, 7th edition, Oxford Press 2000.

(Available from most bookstores - may need to be special ordered.)

**A Field Guide to Eastern Trees**, George Petrides. Peterson Field Guide Series.

(Available from most bookstores - any similar field guide is acceptable as a substitute.)

### Location:

The Agricultural Experiment Station  
123 Huntington Street  
Jones Auditorium  
New Haven, Connecticut 06511

A letter will be mailed to all enrollees prior to the first class.

Please go to [www.CTPA.org](http://www.CTPA.org) for complete directions.

to fill rapidly!**

# Announcing: The Winter 2023 Session of **ARBORICULTURE**

## 101

*A course for those wishing to advance in the field of arboriculture and to prepare for the Connecticut Arborist License exam*

*Presented by*  
**The Connecticut Tree  
Protective Association**  
*with the assistance of*  
**The Connecticut Agricultural  
Experiment Station**

# Arboriculture 101

*presented by*

## the Connecticut Tree Protective Association

This course is intended to provide the successful graduate with the basic information essential to a career in arboriculture. Students who attend class, read the assigned materials and work with the instructors can also expect to do well on Connecticut's Arborist Licensing Exam. However, the course's main goal is to provide that foundation that will assist individuals as they move forward in a career in arboriculture.

In order to get the most from the course, students must make a commitment to studying. They must spend the time and effort needed to learn the covered material. Readings are assigned in advance of each class. Students are expected to complete these reading assignments.

The instructors are drawn from throughout Connecticut's tree care industry. Also included are several scientists from the Connecticut Agricultural Experiment Station. This variety in instruction is one of the key strengths of the course.

Please note - CTPA does not administer the Arborist Exam. That is done independently by the Department of Energy and Environmental Protection and the Tree Protection Examining Board. However, CTPA works closely with both groups to ensure that the material delivered in this course is appropriate to the exam.

### **TENTATIVE COURSE OUTLINE - Classes may take place on Wednesdays. You will notified as soon when arrangements are finalized.**

(Dates that the class will meet are in parentheses. All classes meet from 6-9 pm. The final outline will be mailed out prior to the first class. If needed, make-up dates due to weather will be arranged.)

**Introduction to Tree Biology (1/5/2023)**

**Tree Identification (1/12/2023)**

**Soils (1/26/2023)**

**Non-Parasitic Conditions (2/2/2023)**

**Insects (2/9/2023)**

**Diseases (2/16/2023)**

**Introduction to IPM (2/23/2023)**

**Mid-Class Review (3/2/2023)**

**Trees and the Law (3/9/2023)**

**Safety (3/16/2023)**

**Pruning, Cabling and Bracing (3/23/2023)**

**Implementation of IPM (3/30/2023)**

**Final Review (4/6/2023)**

***If you have any questions, please call Cathy Dvorsky,***

(please detach)
